

148-14599 – Internal Support Springs

Description

Used to prevent damage to assemblies subject to mishandling, high vacuum, or tight bend installations. Made of flat helically wound type 302 stainless steel.

Sleeves spot welded to end of spring to prevent damage of ID of hoses. Internal Support Springs are supplied as assemblies of fixed length and diameter. Specify type and size of hose, configuration of hose fittings, and length of assembly.
