

## B-CPL/ROB-ME-CG – Couplings – Robb Nipple, Male End & Cap

### Description

The Robb coupling nipple is the male end of the Robb coupling assembly. The Robb nipple connects to the fuel riser on the receiving ship and mates with the Robb female end sent by the delivery ship on the end of the fueling hose. A protective cap fits on the nipple when not in use to prevent damage of the male end and contaminants from entering the fuel system.

Complete Assembly.
