

G-214-234 – 2-1/4" Lasdrop Shaft Seal

Description

- 2 1/4" Shaft, 2 3/4" Stern tube, Single water injection
- The Gen II uses a 316-marine grade stainless steel spring to provide pressure to the seal surfaces. Together, the spring and seal ring rotate along with the shaft, and remain secured in the Clamp/Pressure housing.
- The Clamp/Pressure housing is secured to the shaft without the use of set screws preventing galling or damage to the shaft.
- Dual u-cup seals rotate on the shaft and are seated inside of the seal ring to prevent the passage of water to this point.
