

Motor Assembly: Dual Propeller Surface Aerator

Description

Replacement Motor Assembly for our Dual Propeller Surface Aerators

Included: Motor Can, Dual Propeller, and Power Cord

Not Included: Float, Shroud

Optional Accessories: Timer, [Aluminum Anode](#), [Screen Kit](#)

WHY CHOOSE THE SURFACE AERATOR?

- Ideal for Aquaculture and Wastewater Applications
- Lightweight, Easy to Install, and Simple to Operate
- High Oxygen Transfer at an Affordable Price
- Ideal for Supplemental Aeration
- Salt Water Compatible – (purchase an [Aluminum Anode](#) for saltwater applications)

- Excellent Shallow Water Operations
- Water Circulation with Little to No Bottom Turbulence
- All Units are Available with Regular or Cast Aluminum Brackets
- 3-year limited warranty

HOW IT WORKS:

As water flows through the bottom of the shroud and four additional holes, the propeller mixes and forces the water above the surface through our patented unique design. The high pumping volume degasses the water of nitrogen, carbon dioxide, and hydrogen sulfide while raising dissolved oxygen levels.

MODEL F1000DP SPECIFICATIONS:

- 1.0 Horse Power motor with Dual Propeller
- 7.4 Amps (115V) / 3.7 Amps (230V)
- Lbs of Thrust: 36
- Gallons per Minute: 1400
