

Olympus Fountain (floating) with Aphrodite nozzle

Description

Bearon Aquatics is proud to introduce its Olympus Series Fountains – sturdy, efficient without sacrificing height or diameter, and so unique in beauty, we named each after a Greek God. Our decorative fountains offer elegance to your pond with a choice of eight beautiful patterns. Every fountain is simple to install and maintain. Our exceptional design and construction can produce stunning patterns with significantly less horsepower than our competitors, meaning lower operating costs for you.

Two multi-layered bottom crowning patterns are divided by a single center spray in this 3 tier display.

.33 Horse Power – 11' High x 8' Lower Height x 24" Diameter – 24" Minimum Depth
