

## Screen Kits

### Description

Protect your motor with a Screen Kit

There are many reasons you would want to protect your Ice Eater and Surface Aerator from shifting ice, floating debris, fish and wildlife. Whether you are trying to protect your boat, keep your hunting hole open, or aerate your pond to prevent fish kills; these units are your insurance policy and you cannot afford any downtime due to damage.

This 1" grid plastic coated, hot rolled metal screen kit will help protect your investment by preventing foreign objects from entering the shroud while remaining wildlife friendly so you can be confident it will be operational when you need it the most.

Don't leave yourself vulnerable to broken propellers or blown out motors; Protect yourself and install Bearon Aquatics' **Screen Kit Accessory**.

#### Size Chart

**LARGE** – fits 12" diameter shrouds  
fits on the **top** of F500, F750DP, F1000DP Surface Aerator

fits on the **top & bottom** of P750, & P1000 Ice Eater

**SMALL** – fits 10" diameter shrouds  
fits on **top & bottom** of P500 Ice Eater

#### Installation Guidelines

Screen Kit comes with necessary hardware (4 plastic clips and 4 screws) to install to either your Ice Eater or Surface Aerator.

---

Refer to the Size Chart on where you can place them and what size to purchase.  
All you will need is a #2 Phillips head screwdriver, and drill with a 3/32 drill bit.  
Put your clips on as shown in the picture, drill a pilot hole, and fasten the screw into place.  
Work your way around the unit until all four (4) clips are screwed into place.
