

ST-STBK/CGO – Strongbacks – Cargo Stream (Gullwing)

Description

The cargo stream strongback is a weldment that bolts to the bottom of the stream trolley. It has two outboard padeyes with a working load of 5,000 pounds each and a center padeye with a working load of 7,000 pounds. It is used to transfer single or double pallet loads or, when equipped with the aircraft engine transfer sling, transfer aircraft engine containers.
